**What are duration
and tempo?**

Duration and tempo affects the **pace and feel** of any music you listen to.

Duration is the **length of time each note is played for**. Just like in Beethoven's Fifth Symphony, notes can be short or they can be long.

Tempo is the **speed of the music**. It can have a big effect on the listener. You might know some slow songs that you love singing along to. You probably also have a favourite fast song that makes you want to get up and move.
